SUMMARY

Passionate full-stack developer with hands-on experience in building scalable, efficient web applications. Proficient in MongoDB, Express.js, React.js, Node.js, and TailwindCSS, with expertise in Docker, GraphQL, CI/CD, Next.js, and real-time applications using WebSockets. I have successfully delivered multiple projects addressing real-world challenges, and I am committed to continuous learning and clean, efficient code.

WORK EXPERIENCE

Full-Stack Web Developer (Freelance) Aug 2024 - Oct 2024

- Developed a fully functional website for an ESL online teacher, integrating key features to improve their workflow and enhance the user experience.
- Landing Page: Informative, responsive landing page showcasing services and integrating Calendly for session scheduling.
- Admin Dashboard: Built a dashboard enabling teachers to manage and view stats of student contacts and sessions seamlessly.
- Quiz Management System: Enabled teachers to create, edit, and share quizzes dynamically with students, improving engagement.

Front-End Web Developer (Freelance) Jun 2024 - Jul 2024

- Designed and developed a responsive, visually modern landing page for a taxi driver business, ensuring a seamless user experience across devices.

Web Developer, ActyTú Dec 2023 - Apr 2024

- Collaborated with ActyTú to create a professional landing page for their online English school.
- Designed and developed a user-friendly, responsive website using modern front-end technologies.

PROJECTS

MERN E-commerce App (demo: www.mern-e-commerce-mrt2.onrender.com)

- Full-featured shopping cart, product reviews and ratings, product pagination, search functionality, user profiles with order histories, and a seamless checkout process with shipping and payment options, including PayPal and credit card integration.

MERN Jobs Tracker (demo: www.mern-jobs-tracker.onrender.com)

- User and Admin Features: Secure login with role-based authentication, profile management, and an admin panel to view current users and total jobs.
- Job Management and Insights: Add job details (position, company, location, status, and type), track jobs in the "All Jobs" section, and gain insights through visualized job statistics.
